

December 22, 2020

To Whom It May Concern,

I am writing on behalf of Adarsha Bhattarai. Adarsha was an undergraduate intern at KILIÇ MAKİNA OTOMASYON SİSTEMLERİ for summer 2020. Adarsha provided excellent support to the company during the summer as an intern for 6 weeks.

I enjoyed working with Adarsha and supervising him during the internship. Our company produces various automation products used for various purposes. During his intern, he worked in the manufacture of automated machines that produced artificial grass used in football fields, wall decoration, etc. He was able to show his skills in computer programming and engineering workshops. He never hesitated to work as a team and always respected his colleagues.

He mainly worked with PLC (Programmable logic controller), sensors, and motor drivers. His skills in using computer programming language were remarkable and contributed to the company through this skill. His hardworking showed that he is an enthusiastic and active student, always aimed for an excellent result.

I believe that he takes every task with great importance and produces efficient output. This quality of Adarsha makes me say that wherever he goes he will surely make a strong asset.

Please do not hesitate to call me at +90 532 350 58 09 or email me at kilicotomasyon@gmail.com for further information.

Sincerely,
Owner of the Company
Ersin Kiliç
