

15 April 2021

To Whom It May Concern,

I am Mustafa Demirtaş, owner of the Company Furmak Machinery, and I am writing this recommendation letter on behalf of Adarsha Bhattarai. He worked as a part-time intern for a month in my company in winter 2021. He got the opportunity to learn and explore the industrial operation of textile engineering and automation.

Our company produces various textile machinery parts using Control Numerical Control (CNC) machines and Laser technology. I believe Mr. Bhattarai thoroughly enjoyed working with us and gained valuable industrial experience outside the university environment. As far as I have known him, he is a very calm, quick-learner, and intelligent student. Similarly, his collaboration with other members of the company was excellent, and never hesitated on asking questions.

I believe that Adarsha would be an excellent addition to any institution because he is always focused to produce the best results.

If necessary, please do contact me at +90 212 493 12 37 or email me at info@Furmak.com.

Best Regards,
MUSTAFA DEMİRTAŞ
